Marino Pagan, Ph.D. Curriculum Vitae

Curriculum Vitae

Postdoctoral Research Associate, Princeton University

mpagan@princeton.edu

2003-2006 University of Pisa, Pisa, Italy

Laurea (B.S.) in Computer Engineering (110/110 cum laude) Advisors: Dr. Bruno Codenotti, Dr. Massimo Pappalardo

Thesis title: An analysis of the Lemke-Howson algorithm for the computation of Nash equilibria

in bimatrix games

2006-2009 University of Pisa, Pisa, Italy

Laurea Specialistica (M.S.) in Control Engineering (110/110 cum laude)

Advisors: Dr. Alberto Landi, Dr. Andrea Caiti, Dr. Davide Zoccolan, Dr. James DiCarlo

Thesis title: Study of a biologically inspired model for visual object recognition

2003-2009 Scuola Superiore Sant'Anna, Pisa, Italy

Diploma in Engineering (100/100 cum laude)

2007-2008 Massachusetts Institute of Technology, Cambridge, MA

Research visiting student

Advisors: Dr. James DiCarlo, Dr. Nicole Rust, Dr. Davide Zoccolan

2009-2014 University of Pennsylvania, Philadelphia, PA

Ph.D. in Neuroscience Advisor: Dr. Nicole Rust

Dissertation title: The neural mechanisms underlying visual target search

2015-present **Princeton University**, Princeton, NJ

Postdoctoral research in the laboratory of Dr. Carlos Brody

Grants

2016-2019 Simons Collaboration on the Global Brain (SCGB) Postdoctoral Fellowship

"Neural mechanisms underlying flexible decision-making"

2021-2022 NIMH R21 Grant (Carlos Brody, Marino Pagan)

"Experimental platform to investigate the neural mechanisms underlying flexible decision-making"

2021 Simons Foundation Autism Research Initiative (SFARI) Bridge To Independence (BTI) Award

"High-throughput dissection of the neural mechanisms underlying cognitive inflexibility in autism" \$495,000 over three years, activated upon assumption of a tenure-track research professorship

Honors and Awards

2003-2009 Full Scholarship (room and board) for the full duration of undergraduate studies as a winner of

nationwide competition (1st out of 312 applicants), Scuola Superiore Sant'Anna

2012 Best oral presentation at BGSA Symposium, University of Pennsylvania

2012 Jameson-Hurvich Travel Award, University of Pennsylvania

2012 Admission to Computational Vision course, Cold Spring Harbor Laboratory

2013 Presenter's Travel Grant, CoSyNe

Selected Speaker for NeuroLaunchpad Seminar SeriesSelected Speaker for Brown BrainExpo Seminar Series

Teaching experience

2011	Leaching Assistant for	Cellular Neurobiology (BBB251),	University of Pennsylvania
------	------------------------	---------------------------------	----------------------------

2016-2021 Mentorship of graduate and undergraduate students in the Brody Lab, Princeton University

Marino Pagan, Ph.D. Curriculum Vitae

Selected meetings and presentations

- 2011 From luminance to semantics: how images of natural objects are represented in IT cortex. CoSyNe
- 2012 The neural mechanisms involved in finding specific objects and switching between targets, CoSyNe
- 2013 Visual target signals are computed via a dynamic "and-like" mechanism in IT and PRh cortex, CoSyNe
- 2014 Maximum Variance Differentiation (MVD) explains the transformation from IT to PRh cortex, CoSyNe
- 2016 A collicular mechanism for flexible sensorimotor gating during task switching, CoSyNe
- 2016 Neural mechanisms underlying flexible decision-making, SCGB Annual Meeting (invited talk)
- 2017 Flexible decision-making in rats, CoSyNe
- 2018 Flexible feature selection for decision-making in rats, SCGB Annual Meeting
- 2019 Representations and causal contributions of frontal cortex during flexible decision-making. CoSvNe
- 2019 Neural mechanisms underlying flexible decision-making, PNI In-house seminar (invited talk)
- 2019 Representations and causal contributions of frontal cortex during context-dependent evidence accumulation. SCGB Annual Meeting
- 2020 Heterogeneous recurrent mechanisms underlying context-dependent computation in rats, CoSyNe
- 2020 Individual variability in the neural mechanisms underlying context-dependent decision-making, *PNI Inhouse seminar* (invited talk)
- 2020 Individual variability in the neural mechanisms underlying context-dependent decision-making, NeuroLaunchpad Seminar series (invited talk)
- 2020 Individual variability in the neural mechanisms underlying context-dependent decision-making, *HHMI Cognitive and Systems Neuroscience meeting*
- 2021 Individual variability of neural mechanisms underlying flexible decision-making, CoSyNe
- 2021 High-throughput electrophysiology and optogenetics in freely-moving rats performing cognitive tasks, *IEEE NER* 2021
- 2022 Neural sources of individual variability in cognitive behavior, SCGB Annual Meeting
- 2022 High-throughput characterization of cognitive flexibility in rat models of autism, SFARI Annual Meeting
- 2022 Flexible decision-making in rat models of autism, SFARI Autism Rat Consortium Meeting (invited talk)
- 2022 Neural sources of individual variability in cognitive behavior, Brown BrainExpo Seminar (invited talk)
